**What are you awesome at:**

I am awesome at answering questions, helping out, and directing people to achieve and understand different kinds of material. I am very straightforward when it comes to what an assignment/paper may need depending on the course/professor taken. I am always happy to help and can take however much time needed on anything a student may have a hard time grasping. While I might not know it all, I will always put in effort to try and maybe even learn something myself. Whether it's needing assistance or overall support throughout the semester, I will gladly be there to help!

**Personal Statement:**

Great notes that are taken and anything a professor may provide through lectures, directions, outlines, notes, and even blackboard for your use is crucial to achieving the best results. Even though it may seem like a lot right now it's good to take it one day at a time and the semester will fly by. All and any questions are allowed, and this will be a safe space to learn and grow.

### **What are you awesome at:**

I love working together to solve any problems that might arise throughout the semester, whether it be a subject I am proficient in or not. I am passionate that the best way to learn is by doing and so I hope to make tutoring sessions focused around jumping right into concepts together. I have great patience and am always willing to hear your thoughts about what works best for you.

### **Personal Statement:**

Plenty of classes can seem intimidating at first, especially something like research methods. I know that when I first learned about doing research, I certainly didn't see myself succeeding, never mind becoming a tutor in the subject. I really learned that with a bit of hard work and diligence, even those most daunting courses can be made manageable, and often turn out easier than you might expect!

PSY 450 – Biopsych (Blau)

### **What are you awesome at:**

I am awesome at being empathetic and actively listening to any concerns! I enjoy looking for new ways to improve note-taking each semester and planning study hours throughout the week. I also enjoy putting data into SPSS and running analysis! Lastly, I am pretty good at looking over papers and editing them with suggestions that can make it better!

### **Personal Statement:**

I am excited to be a tutor this semester and I hope to be a big part of your journey in the Psychology major! I am a senior and I hope to provide better insight on how to navigate courses, create good study habits, and succeed in Research Methods!

**What are you awesome at:**

I am awesome at listening to people and helping them figure out solutions. I am great at motivating and giving words of encouragement. I know how it feels when you think you have reached an end point and cannot move forward so, I can help you in figuring out how to move forward. I have a lot of patience and am excited by seeing students do their best in their courses.

**Personal Statement:**

I am looking forward to helping you in doing your best in your courses. Some courses can be overwhelming and scary to approach, so it is okay to find help and support in them and I can help you with that.
