

## **AVAILABILITY ANALYSIS**

### **Section 46a-68-84**

As a preparatory step in determining whether protected classes are fully and fairly utilized in the workforce, Central Connecticut State University conducted an analysis by occupational category to determine the availability base of protected group members for employment. The purpose of the analysis was:

- (1) To examine the job content of each office position and position classification within an occupational category
- (2) To identify a relevant labor market area
- (3) To match each office position and position classification within an occupational category, or, where appropriate, a position classification with the most nearly parallel job title contained in the data source consulted

In calculating availability, the following information and data sources were consulted and utilized:

- (1) Employment figures – 2000 Connecticut Occupational Statistics EEO Data.
- (2) Unemployment figures – June 2020, Connecticut Department of Labor Data for Affirmative Action Plans.
- (3) Digest of Educational Statistics – Fall 2019 (all faculty ranks)
- (4) US Dept. Ed. National Center for Education Statistics, IPEDS, Fall 2019
- (5) Race and sex composition of employees in promotable and/or transferable positions.

#### **Note:**

After consultation with the CHRO reviewer on March 6, 2013, the University has removed all coaching titles out of the faculty category and created a separate EEO category (coaching) and a separate analysis was conducted in all numerical sections of the plan.

When new faculty hires have not completed their terminal degrees, they are hired at the instructor level until they obtain the degree required; therefore, after consultation with the CHRO reviewer on March 6, 2013 the instructor category has been consolidated into the Assistant Professor category.

In the 2013, AA Plan review, this section was found to comply with the AA Regulations. After consultation and receipt of technical assistance on June 6, 2014, regarding section 46a-68-40, utilization analysis, the category of protective services has been modified solely based on EEO category designation and not numerical analysis. The category of protective services has been taken out of the EEO 7 category and separated into its own category.

In the 2016 submission, ODE, in consultation with CHRO, consolidated the administrative assistant analysis into the clerical all titles category. For the past four submissions, there have been fewer than 25 administrative assistant positions. In the 2016 submission, there were less than 20. It is unlikely this rank will reach the 25 titles or more to warrant a separate analysis.

In the 2016 AA Plan review, the CHRO review noted the following: The CHRO and CCSU will review, during the reporting period, faculty to determine if analyzing by discipline (ex. English disciplines) will be a more precise analysis and enhance goal setting. 2017 AAP update: CCSU does not presently have faculty data by discipline, which has hindered our ability to conduct a thorough analysis. During this upcoming reporting period, the Office of Diversity and Equity in partnership with the Employee Advisory Committee will work to determine an availability base by discipline. This information will allow the University to conduct an analysis. AAP 2018 update: Due to organizational changes, this action is on hold. CCSU will re-visit this in the future.

\1\Combined total of faculty who were Black, Hispanic, Asian, Pacific Islander, American Indian/Alaska Native, and of Two or more races as a percentage of total faculty, excluding race/ethnicity unknown and nonresident alien.

\2\Race/ethnicity not collected.

\3\Only instructional faculty were classified by academic rank. Primarily research and primarily public service faculty, as well as faculty without ranks, appear under "other faculty."

NOTE: Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. Race categories exclude persons of Hispanic ethnicity. Some data have been revised from previously published

\1\Includes Ph.D., Ed.D., and comparable degrees at the doctoral level, as well as such degrees as M.D., D.D.S., and law degrees that were classified as first-professional degrees prior to 2010-11.

\2\For years prior to 2010-11, the survey did not yet include the "Two or more races" category, and each student could be counted in only one race category.

\3\Excludes 500 males and 12 females whose racial/ethnic group was not available.

\4\Excludes 714 males and 21 females whose racial/ethnic group was not available.

NOTE: Data are for postsecondary institutions participating in Title IV federal financial aid programs. Race categories exclude persons of Hispanic ethnicity. For 1989-90 and later years, reported racial/ethnic distributions of students by level of degree, field of degree, and sex were used to estimate race/ethnicity for students whose race/ethnicity was not reported. Detail may not sum to totals because of rounding. Some data have been revised from previously published figures.
